Yellow fever is doing deadly work at Rio Janero.

The rush to Oklahoma is some thing of a craze.

Senator Sherman is going to Europe in May.

Night before last was the 24th anniversary of the assassination of President Lincoln.

The Prohibitionists of Scott county have nominated J. Y. Kelly for the Legislature.

Miss Nannetta Daisy, known in Kentucky politics, is one of the numerous Oklahoma boomers.

The Louisville colored Republicans have resolved against the Alabama "White man's Republican party" idea.

Richmond, Va., is not dead. A ten-acre lot that sold for \$3,000, five years ago, was sold on Thursday for \$41,000.

Barry Smith published a card in last Wednesday's Courier Journal declining to longer be a candidate for State Treasurer.

The Republican State convention to nominate a candidate for State Treasurer will convene in Louisville on the 22nd of May.

Montana has elected a Democratic Legislature, and that means two Democratic U. S. Senators. Dakota will soon fall into line.

Malone lost \$15,000 in a wildcat lumber scheme, originated by Sergeant-at-arms of the Senate Canavan, and has sued for damages.

The first "White Cap" to be convicted is in Arkansas. The follows across the Ohio, who sneer at justice in the South, will make a note of this.

Ton O'Brien, for killing Bettie Shee, at Lexington, and Bill Fox, watchman at Paris depot, for killing an unknown negro, have been held without bail.

Governor Buckner has ordered Adj. General Castleman to select 300 State Militia to attend the Washington Inauguration Centennial at New York, and the Governor will accompany the "boys."

Harlan county now has a newspaper, its first one. The mountains are rapidly filling up with newspapers. Let the Harlan people read more and fight less, and they'll live longer to say the least.

The new steamer Denmark was abandoned at sea, 600 miles off the coast of Ireland, but what went with the passengers and crew, numbering nearly seven hundred, is a mystery. The abandoned steamer was discovered floating.

Lewis Hayden, who was a slave and ran away from his master, near Lexington, Ky., in the long ago, was buried in Boston with great ceremony on last Wednesday, many of the most distinguished white citizens being present in the church.

Moses Lyman, of Waverly, New York, is the inventor of the new game call "Pigs in Clover." It has struck the town hard, and several parties are expected to go crazy. Mr. Lyman has sued a man in the U. S. Court at Louisville for \$10,000 damages for infringement.

How does the following description of a Leavenworth Kan., municipal election jingle?

One of the morning incidents in another ward was the voting of a straight Democratic ticket by a colored woman, 106 years old. The blacks jested her, but the old woman hung fast to her ticket and said she would live to bury some of "dem trash" yet. The fourth Ward polls witnessed an odd scene. A handsome equipage containing an attractive little woman of delicate appearance came up to the polling place early. She alighted with a colored woman, and the evident intention of voting her. In an instant a swarm of colored men and women were about them. The little woman looked dazed for a moment, then frightened. She uttered a little scream and fell in a dead faint in the arms of her husband, who had been coming to her assistance meanwhile. At Topeka the best ladies in the city turned out, and, as a rule, voted as their husbands did.

WILL SOMEBODY TELL US?

Often we are asked by horsemen, "why don't you get up a horse column every week?"

We answer that we "can't get sufficient horse news to fill a column every week."

"What," they exclaim, "can't find enough horse news to fill a column a week, when every stock paper you pick up is full of it?"

Then we turn to the stock papers and find items after item like the following:

"F. B. Marion, West Branch, Michigan, has bought of F. E. Tallage, East Saginaw, Michigan, the brown horse, J. B. Gould, by O. B. Gould, dam by Merrill's Black Hawk."

How much information is there in such an item? No price is given, no record, no age. Nobody here knows Mr. Marion or Mr. Tallage, or any thing whatever of their careers in horses. Of what earthly benefit, or any other kind of benefit, can such an item be to anybody? Let us hear from you.

THE STATE TREASURY.

State Inspector Miller made his regular monthly examination of the condition of the State Treasury last Tuesday. The amount of cash to the credit of the State in the Farmers' Bank and the Branch Bank of Kentucky is \$298,473.60. Against this sum there are outstanding checks to the amount of \$22,413.80, leaving a balance in favor of the State of \$277,059.80. These examinations, which are very complete, enter into every detail of the transactions of the Treasury, are made at the beginning of each month, thus furnishing the Governor and the people through Inspector Miller's report an exact knowledge of the condition of the finance of the State. No business can be properly conducted where when we learn that the policy of the President was not to remove any officer without cause. In fact, when W. O. Bradley, Lancaster's big four, have been to Washington City, and returned empty handed. As we predicted in our last issue, their applications were premature, since Harrison had committed himself to the civil service doctrine. We have interviewed two of the four, from whom we learn that the policy of the President was not to remove any officer without cause. In fact, when W. O. Bradley approached the President in behalf of Gen. Landrum, for the appointment to the Pension Agency of Kentucky, he responded: "Have you any charges to prefer against Gen. Buell, the present incumbent?" Bradley replied: "I have not. Gen. Buell's term expires Jan. 8, 1890, and he will not be removed until that time."

(For THE CLIMAX.)

WHY NOT EXAMINE?

The natural features of a country must always have a great deal to do with the location of railroads. It of course takes money to build them, but in order to save money, the road should be located on the best and shortest route. If the present line of the R. N. I. B. road runs on the South side of Richmond, then the natural and sensible route is to keep the ridge to Fort Estill, and passing around Mrs. Gregory's, take a bee line down an easy grade passing a little to the right of Hugh Colver's house, and entering the path of the hill at Wm. Bates' apple orchard, and there entering the Mud Creek bottom, you have an absolute plateau and air line to the crossing of the creek with an inexpensive bridge in David Black's bottom, and thence up to Fort Estill, and passing around Mrs. Gregory's, take a bee line down an easy grade passing a little to the right of Hugh Colver's house, and entering the path of the hill at Wm. Bates' apple orchard, and there entering the Mud Creek bottom, you have an absolute plateau and air line to the crossing of the creek with an inexpensive bridge in David Black's bottom, and thence up to Fort Estill, and passing around Mrs. Gregory's, take a bee line down an easy grade passing a little to the right of Hugh Colver's house, and entering the path of the hill at Wm. THE CLIMAX.

WEDNESDAY, APRIL 17, 1859.

Improvement in gas.
Next Sunday will be Easter day.
Dr. Evans has cow pastures to rent.
Horse stolen and mare left. See ad.
Carpenters, call on Dr. Evans for plans.
See ad.

The Fair grounds grass was rented publicly on Saturday to Dr. Evans for \$5.

That excellent jack, Jumbo, the property of Mr. Taylor Rice, is advertised in today's CLIMAX.

The keeper of the cemetery, Mr. David Powers, is laying for persons who take flowers from the graves.

We hear that a new drug store is to be opened in the vacant house next to Farmers National Bank.

City Marshal Feeney gives notice that all live stock running at large on the streets, after April 20th, will be put on the stray pen.

Mrs. N. B. Deatherage was thrown from a horse near her father's house on Muddy Creek, last Thursday, and her left arm broken near the wrist.

Mr. Patrick Grady has opened a bar-room on First street, and his furniture and fixtures are exceedingly elegant. Another \$1,000 in the city treasury.

Mr. H. F. Turner has rented of W. W. Pug the I. M. Pigg place on Lexington Avenue and will move his mother's family here as soon as the necessary repairs can be made.

Elder Milton Elliott was thrown from his buggy, near Richmond, one night recently, while returning home; the buggy was smashed, the horse escaped, and he had to walk home.

Mr. John Parkes of Paint Lick has lost two fine jacks with pneumonia. Mr. Wm. Todd of the same neighborhood has lost one. Considerable uneasiness exists among jack owners.

Meredith Stanley, of Cincinnati, jumped from the top of High Bridge into Kentucky River, Thursday, and was not hurt. The distance is 25 feet. The water was 200 feet deep.

In Judge Scott's court at Winchester, Judge Wm. Beckner was awarded \$1000 as counsel fee for Renick Bros. in the celebrated Renick will case. Judge Beckner deserved the will and deserved the princely fee.

The Signum Case.

Nearly everybody is familiar with the case of the commonwealth against Signum, in the Rockcastle circuit court, charged with the killing of young Higginbotham of Garrard county, during the war. The deceased was a brother to ex-Sheriff John Higginbotham of Garrard, and of Mrs. C. Stanford, late of this place. Governor Buckner has appointed Judge J. R. Morton of this circuit, to try the Signum case at Mt. Vernon in June. The case ought to be disposed of, as Signum is an old man, and the killing occurred a quarter of a century ago.

The Crow Sale of Lots.

Z. E. Bush, auctioneer, reports good crowd present at sale of thirteen lots by Wm. Crow in Crow addition to Richmond, on Friday. Purchasers and prices: M. B. Aruckle, 2 lots, \$200; Green B. Miller, 1 lot, \$125; S. L. Simpson, 1 lot, \$127; Wm. Tester, 1 lot, \$200; C. D. Patti, 3 lots, \$45; J. P. Reeves, 1 lot, \$156; G. W. Pickels, 1 lot, \$147.50; W. R. Cleary, 1 lot, \$45.75; J. P. Hermon, 1 lot, \$65. Total, \$1,849.25. A large lot fronting on Irvine street 160 feet and lying parallel with the K. C. R. R. was not offered.

Water Works.

At the Commercial Club meeting Friday night, Messrs. Jno. Higgins, H. J. Strong and W. G. Willis were appointed a committee to upward the City Council and Water Works Company and try to formulate some plan for putting the enterprise on foot. The committee went before the City Council Monday night and suggested that the company and city subscribe \$20,000 each and raise enough by mortgage to complete the works. This plan is a fair one, but the power of each branch of the proposed company would have to be limited to agreed maximum and minimum rates for water service and expense account. There was a meeting last night of the City Council, Water Works Co. and Commercial Club to further discuss the ways and means of this great necessity. We see the urgent need of water here every day; its uses are innumerable and its benefit can not be reckoned. A good system of direct pressure water works would be well and unconditionally for water works, and sincerely hope that our good citizens will push the matter to a successful termination.

Grand Lodge Knights of Honor.

Last evening we mentioned that Mr. R. Gentry was in Louisville as a delegate to the Grand Lodge Knights of Honor. He arrived there in time to be present at the grand banquet at Leiderkraut Hall, Tuesday night.

The Grand Lodge closed on Wednesday after a two days session.

The hour of election having arrived, Knights Bernard, Wood and Galye were appointed tellers.

S. Sicks nominated for Grand Director; J. T. Funk, F. L. McChesney, of Paris, eloquently seconded the nomination. Andrew Olfert of Lebanon made a similar second, and then W. H. Bryan of Paducah, in the name of 400 Knights of Paducah, also seconded Mr. Funk's name.

W. H. Yost, of Muhlenberg, nominated Hon. T. G. Stuart, of Winchester. Wm. Bennett, Captain General, J. A. Higgins, Prelate; C. D. Clement, Senior Warden; J. J. Brooks, Junior Warden; J. E. Greenleaf, Treasurer; D. P. Armistead, Recorder; D. W. Tribble, Standard Bearer; E. E. Mitchell, Warden; M. H. Stockton, Captain General.

Court of Claims.

This court convened on Monday with the justices of the peace present, Judge Chenuant presiding. Dr. J. W. Harris resigned as Poor House physician, and Dr. T. J. Fain was elected to fill the vacancy. Dr. Harris is in Louisville attending a course of lectures. \$1,000 per mile was given to the Stony run and Ford turnpike.

Commandery Officers.

Annual election—R. C. Stockton, General Commander; W. F. Francis, Generalissimo; Wm. Bennett, Captain General, J. A. Higgins, Prelate; C. D. Clement, Senior Warden; J. J. Brooks, Junior Warden; J. E. Greenleaf, Treasurer; D. P. Armistead, Recorder; D. W. Tribble, Standard Bearer; E. E. Mitchell, Warden; M. H. Stockton, Captain General.

Quit It.

The CLIMAX always glad to have persons for whom have things of interest to make public, but we must, for the ten thousandth time, protest against anonymous letters, no matter how good they may be. If you can't send your name, don't send the letter. Your name does not necessarily have to appear with the letter, or items, but we want it just the same. You may not be able at a glance to see why we should object to publishing these items, such, for instance, as "Bill Dinglered with fever," "Miss Jennie Smoak is to be married next week," "Steve Flytheeck got his horse," &c., &c. But suppose none of these are true, but sent in by some mischievous person for the mere fun of the sending. We are left in a devil of a fix and a long way from Toxtown to boot. Always sign your name.

Surveyor of Port.

Col. John K. Faulkner has returned from Washington City. When asked about his chances for Surveyor of the Port of Louisville, he smiled and said he thought every man, woman and child in Washington, in their homes, on the street cars, or walking the streets, had a "Pigs in Clover" box trying hard to put all four of the wild and slippery pigs into the pen at once.

A Good Railway.

Hon. J. Speed Smith left last week, to solicit advertisements in Cincinnati for the Richmond Fair catalogue. It is said he secured every thing in the Queen City, and is now in Washington having a talk with the President. It is possible that he may induce Mr. Harrison to advertise in the catalogue for a good man to accept the office of Collector of Internal Revenue in this district.

Killed By Lightning.

An eighty-year-old son of George Grindell, who lives at the John Black Noland place, near the mouth of Red River in the county, was killed by lightning last Friday morning. He had been to a neighbor's house and borrowed a flat-iron. On his way home he stopped under a tree out of the rain. The lightning struck the tree, ran down it, and striking the little fellow split his coat down the back and slightly injured other portions of his clothing, but killed him instantly.

Parris of Port.

Mr. S. D. Parish, of Richmond, Ky., who is a member of the firm of Parish Bros. & Co., General Merchandise, has here the past week prospecting, and after viewing Pineville's enterprises and outlook, purchased about \$3,000 worth of business and residence lots. As this news might prove a "pointer" to others, it would not be amiss to state that Mr. Parish is one of Richmond's live lawyers and real estate men, and knows a good thing when he sees it.—Pineville Messenger.

New in Look At This.

From the Courier Journal of Saturday says : "The Winchester Water Company has been incorporated into The Incorporated Water Co. H. E. Huntington, Eph. Randolph, J. B. H. Davenport, John Edwards, and J. Sturz Walker. The capital stock is \$75,000, which may be increased to \$100,000. Another company from Chattanooga has surveyed the property for the purpose of building water-works, and it is safe to say they will be built."

Cashier's Said.

Col. David W. Irvine sold, last week, to Mr. Ross, of Shelbyville, Illinois, his stallion Cashier, for \$1,000. Irvine was by King Rene, he by Belmont, out of Win. M. Irvine's Hambleton, out of Minnie by Red Jacket.

Draft Change.

Dr. Phil Roberts has sold his interest in the draft of Roberts & Wines to Mr. Charley Tudor, and the new firm of Wines & Tudor will continue at the old stand, Dr. Roberts will devote his time exclusively to the practice of medicine.

Improvement in Gas.

The Gas Company have completed the addition to their works their capacity sufficiently to supply all demands of a city three times Richmond's size. A notable feature of the improvement is the absence of the former sulphur odor. When the moon doth cease to shine the street lamps will begin to burn, Thursday night.

New in America.

In its issue of April 4, America celebrated its victory upon the second year by appearing in a new and very much more convenient form of double the number of pages. It makes a further departure in the shape of a cartoon, by Thomas Nast, who will be a regular contributor to its columns. Mr. Nast has taken as the subject for his initial cartoon, "Our Political Unrest," which he represents as a mammoth demigod, from which emerges a typical ward politician. From the mouth of the jug issues a flat pole from which flies an Irish flag, underneath which flutters a badly tattered star and stripes with the jack down. The whole cartoon is full of characteristic work more in detail than has been usual with Nast of late.

The mission to the court of Sta-

a gentleman who left to his own

resources, would remain in an obscure

station through life. Mr. Lincoln

goes to fill a place such as was in-

trusted to the Adames, Franklin

and Jefferson when the Republic was

feebler. The idea must be that, in

this, this nation should be

continued and maintained until a suf-

ficient number of adequately trained

and equipped foresters has pro-

vided by the National Government for

the administration of a complete and

permanent system and policy for the

management of the forest on the pub-

lic domain.

This brings us to consider the third

step. This should be the appointment

to the President of a commission to

make a thorough examination of the

condition of the forests belonging to

the Nation and of their relation to the

agricultural interests of the nation

through which the streams flow which

have their sources in those forests,

and to report, with the facts observed,

a comprehensive plan for the preser-

vation and management of the public

forests, including a system for train-

ing, by the Government, of a sufficient

number of foresters for the National

forests.

The Commission should determine

what portions of the existing forests

of the public domain should be per-

manent and which should be dispo-

nable. The National forests can be so

managed that they will be perpetually

reproduced, and will yield forever an

abundant supply of timber for the in-

habitants of the adjacent country, and

a revenue which will more than sus-

tain the cost of the forest service. A

National School of Forestry should

be established at a suitable place in one

of the great mountain forests on the

public lands, and its equipment should

be as thorough and adequate for its

purpose as that of the National Mil-

itary Academy at West Point.—Garden
